I would hereby remark that the amount received for highways was inadequate for the work that ought to be done. No road agent can do justice to the public on that amount. I couldn't satisfy myself and I am sure that the public couldn't be satisfied with what has been done. I would advise raising more road money and less to defray town charges, as it is called, if need be. As I understand it, after the money raised for the road has been expended, the agent has no right to expend money without the orders of the selectmen, and his hands are tied until he can get at the selectmen, which is often hard to do, thus being blamed by the people for not doing things which ought to be done, when his hands are literally tied.

NOTE—Upon examination of the precinct building by the commissioners, it is found necessary account of damage to Masonic Hall furnishings to shingle roof of said building. It was voted at precinct meeting to build new set of stairs and cover same, also put in new

door, all of which made an expense of 0162.82. Our receipts during the year were \$232.98. After paying for repairs there was a balance of \$70.16 to maintain and keep walks clear of snow and ice, which was not enough to defray the expenses, and at the present time there are demands against the precinct amounting to about \$35.00.

A savings bank account has been opened with the Plymouth Guaranty Savings Bank and I would suggest that the money now in the treasury be placed with this account. Any contributions to this fund will be very acceptable.

Through the earnest efforts of Harry C. Clark and others, a very substantial and attractive fence has been erected about the Pondfield cemetery, with very little expense to the town.

The Town cemetery is now inclosed with a fence which should last for years.

Superintendent of Cemeteries.

REPORT OF SCHOOL BOARD.

In bringing again our annual report for the year 1915-1916, we wish to thank the people for the many courtesies shown us and for the interest shown in the schools.

The average attendance for the year is above that of last year. We are pleased to think that this indicates an increased interest on the part of the parents and a greater confidence in the value of the schools. We strongly urge parents to make more frequent visits to the schools, that they may judge at first hand the work that is being done and at the same time show both scholars and teachers their interest. This will also encourage the teachers.

We began the year with three new teachers at the North Woodstock schools, and two at the Center. We were able to retain Mr. Moore and Miss Thompson at the North, and Miss Smith at the Tannery.

We would further call the attention of those who have scholars in the school to the importance of having the scholars at school at every session and on time. Every case of tardiness and absence is a loss to the pupil and also lowers our rating with the state, thus reducing the amount of state aid and our chances of reaching the standard required for state approval.
